Professional Summary

Results-driven **Data Analyst & Full-Stack Developer** with strong expertise in **Python, JavaScript, Power BI, and Power Apps**. Experienced in building **data-driven solutions, process automation (RPA), and business intelligence dashboards** to optimize decision-making and efficiency. Skilled in **SQL, cloud integration, and machine learning**, with international experience in Australia and proven track record in the financial sector (Sicoob). Committed to continuous learning and delivering impactful digital transformation.

Professional Experience

Senior BI Analyst | Python/JS Developer

Sicoob – Cascavel, Brazil | Feb 2024 – Present

- Developing **data analysis solutions** using Python, SQL, and advanced visualization with **Power BI**.
- Building **custom applications in Power Apps** and automating workflows with RPA.
- Designing **interactive dashboards** and data pipelines to transform raw data into actionable insights.
- Leading initiatives in **digital transformation** for financial operations.

Technology Analyst

Sicoob – Cascavel, Brazil | May 2021 – Feb 2024

- Provided **IT infrastructure and hardware/software support**, ensuring system stability and security.
- Migrated **firewall from SonicWall to Fortinet**, including OLT configurations (via SSH/Putty).
- Created a **PDF compressor** and implemented multiple **RPA automations** to streamline processes.
- Developed responsive **web applications** and dashboards for internal users.

Assistant – Products & Services II

Sicoob – Cascavel, Brazil | Nov 2015 – Mar 2018

- Supported members in banking products: checks, consortia, boletos, and transactions.
- Managed **file remittance/return processes** and homologation for new clients.
- Conducted **team training sessions**, improving operational knowledge.

Analyst – Support & Testing

Tecinco Informática – Cascavel, Brazil | Jul 2013 – Jun 2014

- Provided **technical support** for ERP systems using SQL queries to diagnose and resolve issues.
- Conducted **software testing** and collaborated with developers to ensure quality releases.
- Created and updated **technical documentation** for internal systems.

International Experience – Australia

Gold Coast, Australia | 2018 – 2020

- Completed **Advanced Diploma in IT Networking Engineering**.
- Gained hands-on experience in **IT maintenance (smartphones, laptops)**.
- Worked in diverse roles (construction, hospitality, cleaning) while improving **English proficiency** and cultural adaptability.

Education & Certifications
